LINEA

FULLY FRAMED PANELS

In bathroom design, the trend of minimalism continues to grow in popularity.

With that in mind, we are pleased to release our architecturally designed LINEA range of fully framed clear toughened panels.

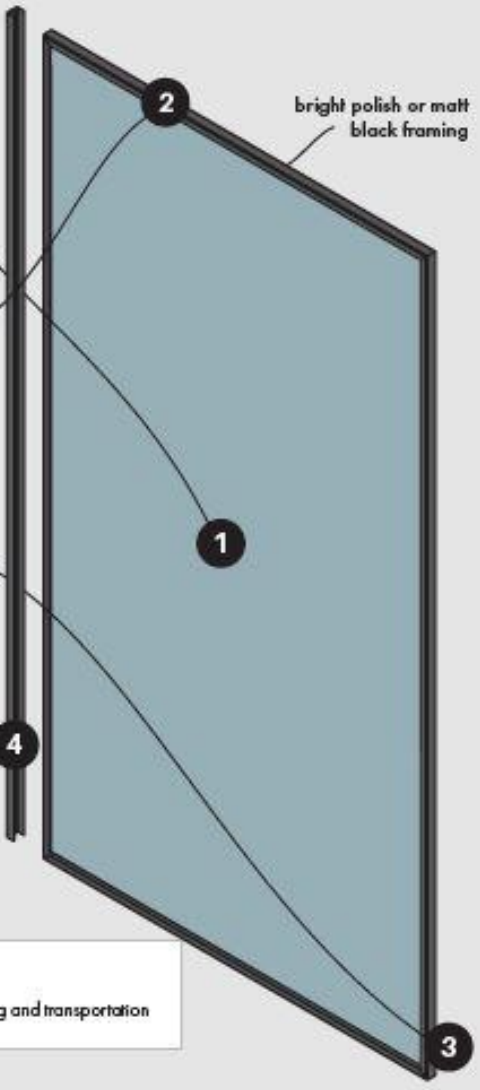
A slimline 25x15mm aluminium extrusion fully frames a 6mm clear toughened panel of glass. Easy to install, the Linea range provides a cost effective and stylish solution

Panels are 2000mm high and available in 3 widths framed in a classic bright polish finish or an on trend matt black finish.

1 High quality glass
Clear toughened 6mm grade "A" glass
AS/NZS 2008 compliant - SAI global certification

2 Durable aluminium frame
Fully framed durable aluminium extrusion (15mm wide x 25mm deep) available in bright polish finish or matt black powder coat

3 Specially designed corner stakes
Special internal 90° corner stakes to ensure mitred corners stay perfectly together

4 Fast U channel installation
28mm x 20mm U channel allows for quick and easy installation and provides 5mm of width adjustability. U channel also aids with installing on out of square walls


Individually packed panels
Each panel is individually packed in a cardboard box for safe handling and transportation
