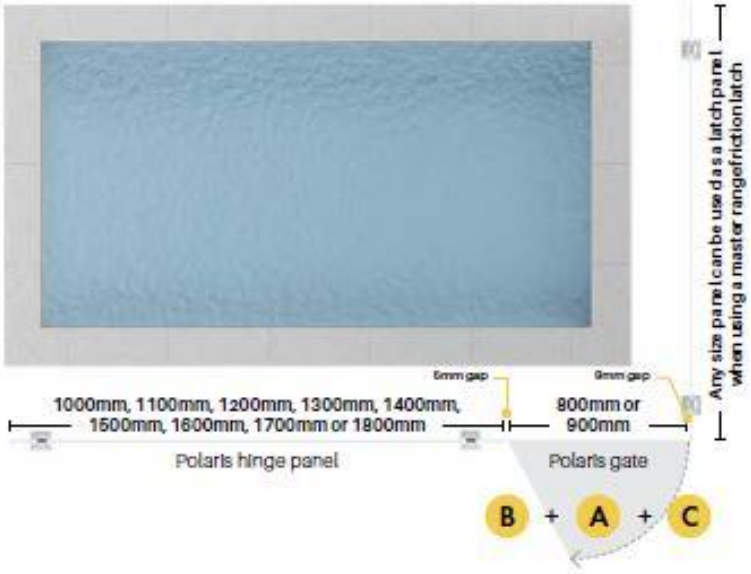
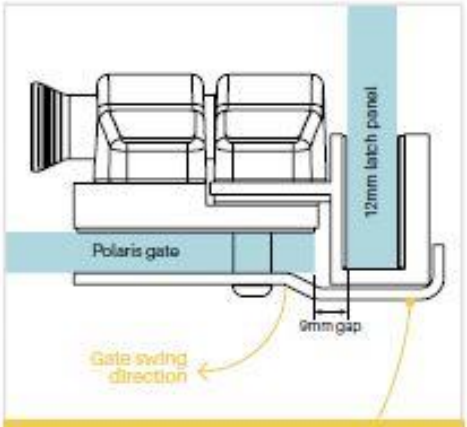
FRAMELESS GATE LAYOUTS POLARIS

Glass to glass Polaris hinges with **external 90° corner fitting** latch

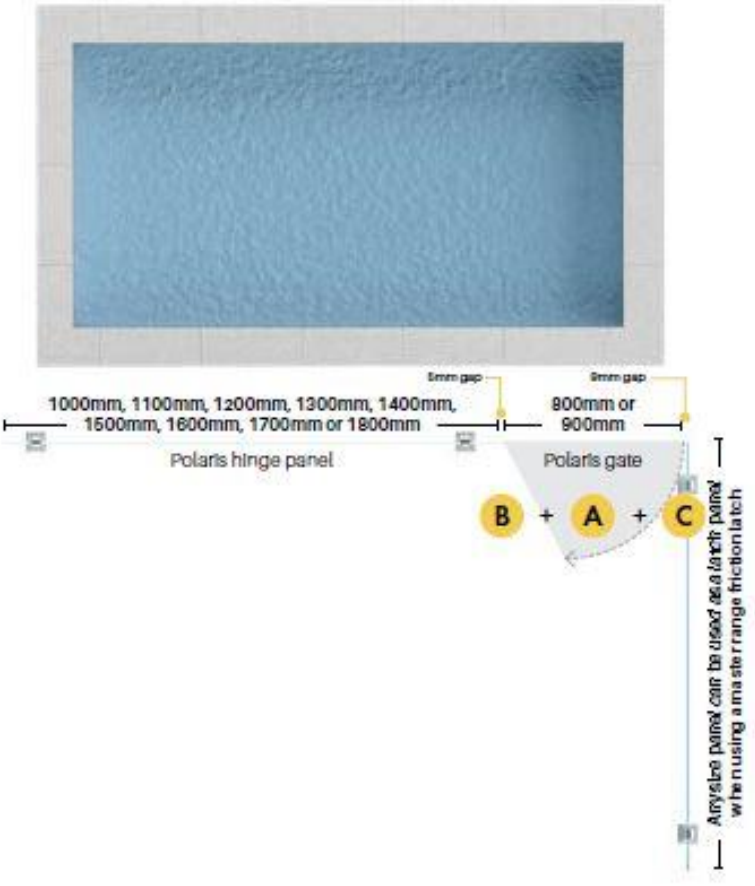




Look!

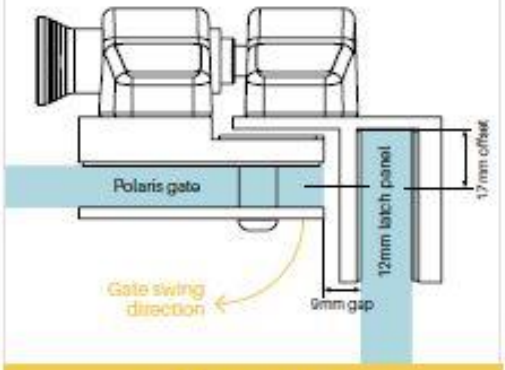
Specially designed hook plate ensures latch cannot detach if return panel moves sideways.

Glass to glass Polaris hinges with **internal 90° corner fitting** latch



Important!

Offset gate requirement



Look!

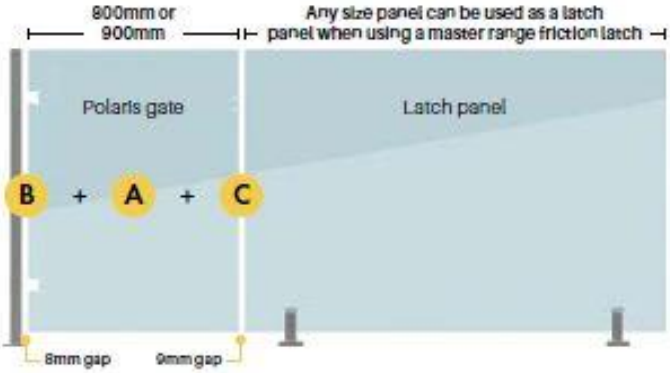
Specially designed internal catch ensures latch cannot detach if return panel moves sideways.

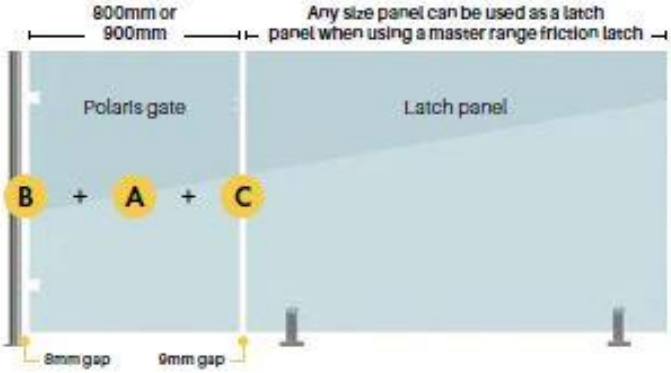
NOTE: DRAWINGS ARE NOT TO SCALE

FRAMELESS GATE LAYOUTS POLARIS

Square post to glass Polaris hinges with glass to glass latch

Important!
When using the Polaris square post fixing plates, a heavy duty post (at least 50.8mm square or larger) must be used



Round post to glass Polaris hinges with glass to glass latch


Important!
When using the Polaris round post fixing plates, you must use a Ø50mm post.
Due to the weight of the glass gate, we recommend using a post with a wall thickness of at least 2.5mm
