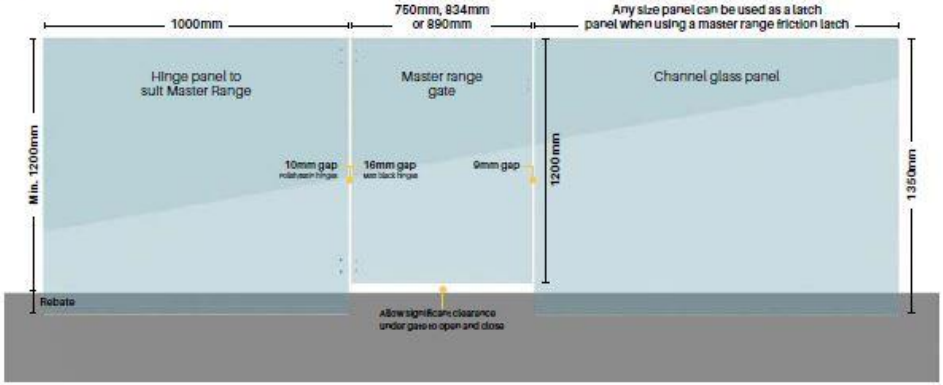
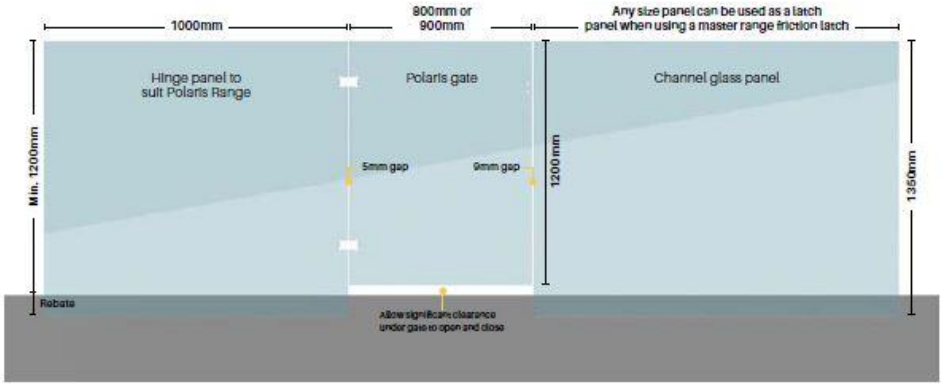
Layout for **Master Range** gate & hinge panel



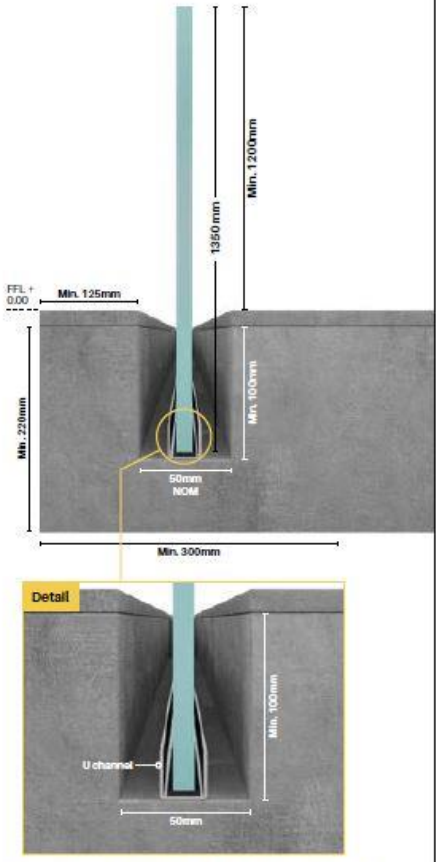
Layout for **Polaris** gate & hinge panel



CLEARGLAZE CHANNEL GLASS INSTALLATION

Frameless rebate information

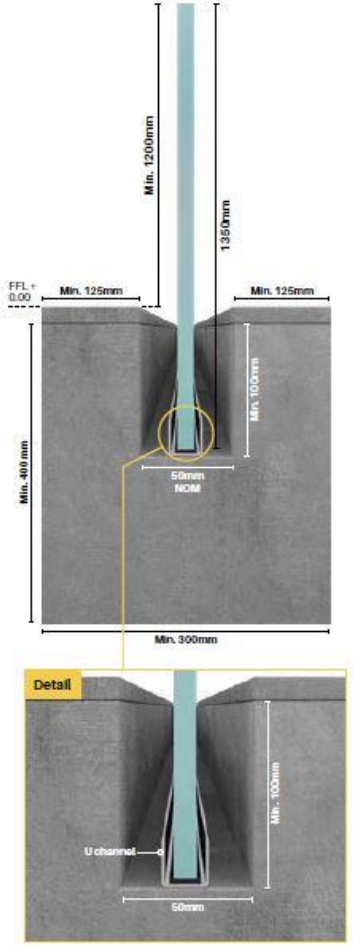
Concrete slab installation guide



(Use as a guide only as each installation situation is different)

Any straight extrusion can be considered for U channel as it is only used as a straight guide for glass positioning. Ensure packers are used to separate glass from channel.
Consider using our mill finish aluminium U channel if required: XP-5800-U-M (5800mm long U channel)

Plinth installation guide



(Use as a guide only as each installation situation is different)
